

SCHOOL SPIRIT

December 2017

Hello everyone,

Well we have passed the Thanksgiving break and are in the home stretch to close out 2017. In less than a month we will be getting together with family and friends over the holidays and talking about how much we ate and all of the busy things we have going on in our lives. Then, in the blink of an eye, another year will be complete and off we will all go into 2018. When school starts again in 2018, we will all be back to the work and school routines that we have established to make our lives run smoothly.

Before blasting off into 2018, I would urge you to push the pause button for a moment. Take some time to reflect on those that are the most important in your life, your family and friends. Remember that those relationships are important to your health, happiness, and success each day. Make the time over the holidays to tell those important people in your life how much they mean to you. In fact, I challenge you to look at the contacts in your phone right now and pick out the one person in there who has helped you the most to get to where you are today and send them a sincere text telling them how much they mean to you. I think you will be surprised with the response you will get.

As 2017 comes to a close, there are so many things going on our school district right now that will have a big impact on our students going forward. We are preparing to implement 1:1 technology next fall, we are engaging in the discussions on school facilities, we are looking at ways to update our school website, and we are preparing a community survey to better understand our strengths and challenges as a school district.

Thank you to our teachers and support staff for their commitment and all of the work they do every day to make our students successful. Also, thank you to the administrative team and the school board for your leadership and focusing on what is important to our school district. I am excited about what we have accomplished in 2017 but even more excited to see what 2018 has in store for the Monticello Community School District.

Thank you for your continued support of the Monticello Community School District and as always, please feel free to contact me anytime if you have questions. My email address is brian.jaeger@monticello.k12.ia.us.

Brian Jaeger, Superintendent

Attention Parents and Guardians:

Winter is upon us! As we are in the season for cold weather, we would like to remind you that there is no regularly scheduled adult supervision at school buildings before 7:50 AM. (*Exception: Students that ride the shuttle buses may be on the school site (as necessary) prior to 7:50 a.m. and middle school students should not arrive before 7:45 a.m., doors open at 7:50 a.m.*) Except in rainy or sub-zero conditions, buildings are generally not open before 8:00 AM.

Please be certain your children are properly attired for colder temperatures with a winter coat, hat, and gloves. Elementary students also need snow pants, boots, and weather proof gloves for recess.

It is also important for bus riders to have proper winter attire. While it has not happened in recent memory, the possibility exists a bus could break down while on a route. As such it is important the children be warmly dressed in case a bus break down occurs.

Finally, especially for elementary and middle school students, please mark your child's name on their coat, gloves, and hat. District employees (especially bus drivers) regularly find lost articles of clothing, and with no name on the clothing we have no way of returning the items to their owner. Thank you!

MHS Hosts College and Career Fair

On Wednesday, November 8th, the high school sponsored a College and Career Fair for 10th through 12th grade students. There were 58 colleges and businesses represented at the fair. We received much positive feedback after the event, as students shared with their teachers their new or newly reinforced ideas about college or career choices. As shown below, 99% of students learned new college information and 95% of students learned new information about a career. We thank the college and career representatives that were able to join us at the fair. If you know of a career representative that should be invited to next year's fair, please contact Carmen Stenger at carmen.stenger@monticello.k12.ia.us or 465-3000, ext. 1315.

There were some members of the community also present. The Board of Education will vote on a firm at their meeting on November 27.

FACTS ON HEAD LICE

What are head lice?

Lot's of children get head lice each year. Head lice are small insects that live on the hairy parts of the body. They are very small, about the size of a sesame seed. Lice can be tan, brown or gray. Lice eggs are called nits. They are tiny, white and oval. Nits attach to the hair near the scalp, mostly behind the ears and at the base of the scalp. Head lice are not a sign of being dirty, are not dangerous and do not spread disease. The most common symptom is itching, but some children have no symptoms at all.

How are lice spread?

*Lice can't jump, they only crawl. Head to head contact is the most common way to get lice.

*The sharing of clothing (hats, scarfs, coats, sports uniforms) or articles (hair ribbons, barrettes, combs, brushes, towels or stuffed animals) recently worn or used by a person who has head lice.

What can you do to prevent head lice?

*Parents are the key to looking for and treating head lice.

The Iowa Department of Public Health advises parents to spend 15 minutes each week on each child carefully looking for head lice or nits. Talk to your children about what to avoid and what not to share.

*Avoid head to head (hair to hair) contact during play and other activities at home, school and elsewhere (sports activities, playground, slumber parties, camp).

*Do not share combs, brushes, or towels. Disinfect combs and brushes by soaking them in hot water (at least 130 degrees F) for 5-10 minutes.

*Do not share hats, scarves, coats, sports uniforms, hair ribbons, brushes, combs or barrettes.

*Do not lie on beds, cloth furniture, pillows, carpets, or stuffed animals that have been recently used by someone with head lice.

What if you find live head lice or nits ?

The Iowa Department of Public Health recommends a 14-day treatment process. For a brochure talking about treatment recommendations and a treatment calendar detailing what to do each day, please visit:

www.idph.state.ia.us/hcci/common/pdf/headlicebrochure.pdf

*Do not fumigant sprays or fogs. They are not necessary to control head lice and be toxic if inhaled or absorbed through the skin.

*Only ordinary house cleaning, vacuuming, and washing bedding and clothes in hot water and drying on hot/high heat are needed. No special efforts or sprays are needed to clean your home. Only dead or dying lice are found on clothing, bedding or furniture. For stuffed animals and pillows, etc. you cannot wash and dry, seal in plastic bags for two weeks to kill the lice.

*The use of oils, mayonnaise, lotions, creams and vinegar has not proven effective. Kerosene, gasoline and similar products do not work and are dangerous.
