

The school district shall conduct school bus safe riding practices instructions and emergency safety drills twice a year for students who utilize school district transportation.

Each school district vehicle shall have, in addition to the regular emergency safety drills, a plan for helping those students who require special assistance to safety during an emergency. This shall include, but not be limited to, students with disabilities. School district vehicle drivers are required to attend each safety drill. Employees shall be responsible for instructing the proper techniques to be followed during an emergency, as well as safe riding practices.

All school district personnel and designees must wear seat belts while operating school and private vehicles for school district functions.
