

It is the goal of the Monticello Community School District Transportation Department to provide the safest student transportation possible. As the District purchases school buses in future years we will begin to purchase school buses equipped with lap/shoulder seat belts. As we continue to update our fleet annually, more and more school buses will have lap/shoulder seat belts until we have updated the entire fleet. The District requires that all students riding a school district bus, equipped with seat belts, will wear seat belts while the bus is in motion.

Students refusing to use seat belts create a safety concern for themselves and others, and may be subject to school district disciplinary actions. Repeated refusal to wear seat belts can result in suspension from bus riding privileges.
