

SCHOOL SPIRIT

September 2018

Hi everyone,

In your house, I hope everyone is adjusting well to the new schedule since school is back in session. In our schools it has sure been a smooth beginning to the school year. Standards Referenced Reporting, 1:1 rollout, bond election, new staff members...just to name a few start up projects. I am always so impressed with the adults in our school district. Everywhere I go, I see people committed to kids and working hard to be the best they can be. That is the secret to our success....the people that work in our school district!

In our school district we like to, "keep moving forward". That was the philosophy of Walt Disney. When you continue to move forward and create new challenges for the students and staff we create a culture of learning, excitement, and inquiry. If you keep moving forward and stay focused a lot can be accomplished. In fact, after some time has passed, when you look up, you realize you are way out there ahead of the pack. That is just who we want to be in the Monticello Community School District....we want to be leaders in every possible area.

In September, our school board will be considering the approval of a School Resource Officer (SRO) in the Monticello Community School District. This position would be a Monticello Police Officer assigned to the school district. Having an SRO at our schools will allow us to utilize their skills for safety and education. An SRO's presence can help to deter the bad guys in addition to helping us develop appropriate emergency plans and they can be used as an educational resource in classrooms. This may be new to Monticello but all over the nation SRO's are placed in schools and they interact with teachers and students in a way that is positive and beneficial for every person in the school district. If approved by the school board this would be a fantastic addition to our school district.

We will have many projects going on this school year but one of the most important will be to renew the current Strategic Operating Plan (SOP). The three year plan we developed when I moved here is coming to an end this spring. We will be looking at our survey data from last spring and collecting input from our students, staff, school board, and our community to begin the process of making a Strategic Operating Plan that we can follow for the next 3-5 years. In the current plan we focused on the areas of Technology, Communication, Teaching and Learning, and School Facilities. The action plans we developed in each of these areas have guided our work for the last three years.

As you know, this fall the Monticello Community School District is holding an election on September 11 to address our 94 year old middle school. The election is asking the community for a 15 million dollar general obligation bond to build a 5th-8th grade building that would be attached to the high school. This election is your chance to change the future of the Monticello Community School District. Please mark this important date on your calendar and please vote!!!

As always if you have any questions please feel free to send me an email or give me a call at any time. Thank you for your continued support of the Monticello Community School District.

Sincerely,

Brian Jaeger

SOPHOMORES, JUNIORS, & SENIORS!

Workplace Learning Connection (WLC), a department of Kirkwood Community College, coordinates high-impact programming in career connected learning for our district. One of those quality programs is the student job shadow program. Students explore a career pathway of interest so they are better prepared to make decisions about their next steps beyond high school. After applying, a job shadow is scheduled where they will learn about the highlights, challenges, essential skills and educational pathway of that career. These work-based learning experiences support our students' individualized career and post-secondary education plans. There is no charge to students to participate.

Job shadows are available to high school sophomores, juniors and seniors. WLC staff presented information on job shadows and internships on August 28th. **Job shadow applications are due September 19th.** Students and their parents are encouraged to visit www.workplace-learning.org and click on the Job shadows tab to explore the many options for both group and individualized job shadow experiences.

Shadow a Student Day!

Parents, take the opportunity to come "walk in the shoes" of your child! We are inviting you to a Shadow a Student Day at the Middle School on Friday, September 7.

Monticello Board of Education Corner...

Each month we are going to highlight an item from our Board of Education.

At their August work session and regular meeting, the Board of Education discussed having a School Resource Officer (SRO) in our school buildings everyday. The SRO would be a full time police officer who would provide security and safety in our schools.

School Resource Officer programs are recognized nationally as programs that effectively establish positive working relationships between the schools and the police department. The School Resource Officer (SRO) will assist school administrators by taking immediate action when police intervention is warranted. Additionally, the SRO will provide guidance and support in assisting school staff, students and parents with a variety of non-emergency police related matters.

The Board was presented a sample job description and a 28E agreement with the City of Monticello. It will be added to our September board meeting agenda for consideration.

And finally, please remember to **VOTE on September 11, 2018!**

Annual Notices**Notice Regarding Protection of Student Rights**

The Protection of Pupil Rights Amendment (PPRA) affords parents and students over eighteen (18) years of age and/or students who are considered emancipated minors pursuant to Iowa laws ("eligible students") certain rights with respect to the district's conduct of surveys, collection and use of information for marketing purposes and certain physical exams. These include the following rights:

The right to consent before a student is required to submit to a survey that concerns one or more of the following protected areas ("protected information surveys") if the survey is funded in whole or in part by a program of the U.S. Department of Education (ED):

- Political affiliations or beliefs of the student or the student's parents;
- Mental or psychological problems of the student or the student's family;
- Sex behaviors or attitudes;
- Illegal, anti-social, self-incriminating or demeaning behavior;
- Critical appraisals of others with whom the respondents have close family relationships;
- Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
- Religious practices, affiliations, or beliefs of the students or parents; or
- Income, other than as required by law to determine program eligibility.

The right to receive notice and an opportunity to opt a student out of a protected information survey, which concerns any of the protected areas outlined above, regardless of the source of funding of the survey.

The right to receive notice and an opportunity to opt a student out of any non-emergency, invasive physical examination or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical examination or screening permitted or required under Iowa law.

The right to receive notice and an opportunity to opt a student out of activities involving the collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

The right to inspect, upon request and before administration or use, any of the following information:

- Protected information surveys of students;
- Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
- Instructional materials used as part of the educational curriculum.

The right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of PPRA. The name and address of the office that administers PPRA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., SW, Washington, DC, 20202-5920.

The district will also directly notify, such as through U.S. Mail or e-mail, parents of students who are scheduled to participate in the specific activities and will provide an opportunity for the parent to consent to or opt his/her child out of participation of the specific activity or survey. The district will provide the Schedule of Activities outlining the activities to which this notice applies, preferably at the same time as the district provides this notice, if the district has identified the specific or approximate dates of the activities and surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and/or planned activities and surveys that may arise during the school year that are not listed below, and will be provided an opportunity to consent to or opt his/her child out of participation of the specific activity or survey. Parents will also be provided an opportunity to review any pertinent surveys.

The district will develop policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales or other distribution purposes. The district will directly notify parents of these policies at least annually at the start of the school year and after any substantive changes.

Notification of Rights under FERPA for Elementary and Secondary Schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the School receives a request for access.
Parents or eligible students should submit to the school principal, or appropriate school official, a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.
Parents or eligible students who wish to ask the School to amend a record should write the school principal, or appropriate school official, clearly identify the part of the record they want changed, and specify why it should be changed. If the School decides not to amend the record as requested by the parent or eligible student, the School will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to privacy of personally identifiable information in the student's education records, except to the extent that FERPA authorizes disclosure without consent.
One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board; a person or company with whom the school has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, medical consultant, or therapist); a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks.
4. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
