

Policy Title: **Promotional Activities**

Policy #1005.3

Activities requiring students and teachers to assist in promoting campaigns (financial, educational, charitable or otherwise) that demand the time of students, teachers, and administrators shall be prohibited, except as hereinafter provided, unless such campaigns are in accord with the general policies of the board.

No agent, person or persons shall be permitted to solicit any student or teacher for any purpose; to distribute circulars, handbills, cards or advertisements of any kind; to make announcements of any nature or to take up contributions in any school district building or on school district grounds, for any purpose whatsoever, except by approval from the superintendent as being in accordance with the general policies of the board.

Participation by students in charitable activities is considered to be a desirable part of their total education. To the extent that such an activity is part of the educational program, the board will authorize the administration to determine the nature and extent of such activity.
