5. Next Meeting Notice

February 23, 2022: The group met in the district boardroom, discussed climate and culture data, and came up with recommendations for the school board.

1. Welcome and Introductions
2. Reviewed Climate and Culture Data from December Meeting
3. Broke Out into Small groups to Review Academic Data: English Language Arts Data, Math Data, Other Academic Data
4. Whole Group Discussion
5. Recommendations to the School Board

### **Recommendations for the school board from the SIAC Committee:**

1. High quality literacy instruction at the elementary through programs like the Literacy Project in order to continue to improve student achievement in literacy.
2. Target strategies, programs and systems to support challenging our students who are proficient in order to move them into being advanced in Mathematics and English Language Arts.
3. Provide opportunities and structures for teachers to better communicate with families about their students' progress in school.
