

School district property is held in public trust by the board. School officials may, without a search warrant, search a student, student effects, lockers, desks, work areas, and student automobiles located on district property, in instances where the school official has reasonable grounds for suspecting that a school district policy, rule, regulation or law has been violated. The search is in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the district facilities.

School officials may also conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the district and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, will not create a protected student area and will not give rise to an expectation of privacy with respect to the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized, or contraband materials discovered in the search. Items of contraband may include but are not limited to nonprescription controlled substances, such as marijuana, cocaine, amphetamines, barbiturates, apparatus used for the administration of controlled substances, alcoholic beverages, tobacco, weapons, explosives, poisons and stolen property. Such items are not to be possessed by a student while they are on district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Possession of such items will be grounds for disciplinary action and may be grounds for reporting to local law enforcement. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.
