

In order to promote the best educational experience, students should feel connected to their educational environment and to others in the school community. Building meaningful connections can occur in a variety of ways. Technology has advanced peoples' ability to connect with one another across a variety of virtual platforms, and when used appropriately, adds value to the learning environment. However, it is vital to the developmental health and growth of students that the district provides opportunities for students to connect with peers and other members of their school community in-person whenever possible. In-person learning and interactions teach vital life and social skills that students will need for their continued success in the community.

For this reason, student use of personal electronic devices during instructional time is prohibited. Students have access to district-owned electronic devices as appropriate for the instructional needs of the learning environment and authorized by the classroom teacher. Parents or guardians who need to communicate with students during instructional time may contact the school building administrative office.

Instructional time is defined to mean from the first bell of the day to the last bell of the day (8am-3:15pm). Each building principal will have the discretion to allow cell phone usage during passing and lunch time or other times deemed appropriate by the principal. Personal electronic devices mean any device that is capable of electronically communicating, sending, receiving, storing, recording, reproducing and/or displaying information and data. This may include but is not limited to electronic communication equipment, mobile phones, smart phones, video game devices and portable media players. Students may wear smart or electronic watches but may not use any communication applications or features that are prohibited from use on other electronic devices and all notifications must be turned off. Personal electronic devices that have been specifically authorized under a current individual education plan (IEP), a Section 504 plan, or an Individual Health Plan (IHP) are exempt from this policy.

Students who choose to use personal electronic devices outside instructional time but while on school property, at school-sponsored events, or in a manner that may impact the educational environment must use these devices in accordance with all applicable laws and board policies. Students who violate this policy may face disciplinary consequences up to and including suspension or expulsion. The Superintendent, in conjunction with building level administration, will develop administrative regulations in accordance with this policy.

This is a mandatory policy.
